

Open season success

Europlants' managing director Renato Canale was delighted with the 2002 Europlants UK Ltd open days last month. Six hundred company representatives from garden centres, landscape companies and nurseries attended the event. There was particularly high demand for cordylines, chamerops, tree ferns and the many trolley deals. Many visitors also booked up their spring visits to the 700-acre Vannucci nursery in Pistoia, Italy where they will tag plants for direct delivery to their sites.
