

A taste of Italy

Vannucci Piante (9D13/B4) and their UK agents Europlants are encouraging visitors to take advantage of special offers and promotions on autumn lines.

The Vannucci stand doubles as a showroom, with samples of plants ready for immediate sale through garden centres. The focus, this year as always, is on

new and unusual lines.

Vannucci are also promoting the new showhouse facility at their nursery in Pistoia, where customers can view the company's entire range. The next organised trips to Vannucci are later this month and in early October.
